

STC 2022
29th IEEE Software Technology Conference
Call for Papers, Presentations and Tutorials
October 3-6, 2022
Online/virtual
<http://iee-stc.org>

The IEEE Software Technology Conference (STC) is for software engineering practitioners and researchers from industry, government, and academia. STC provides a forum for authors, presenters and participants to hear from prominent researchers and practitioners in the field as well as share opportunities, challenges, and successes. The conference will include both presentations and full papers (optional), with keynote presentations by academic and industry leaders, as well as digitally published proceedings of the presented works.

Please see <http://iee-stc.org> for more information. You have the option to submit full papers or abstracts for presentations. All submissions will be peer reviewed and accepted full papers will be published in the IEEE Xplore Digital Library. Tutorials are also of interest.

Focus Areas Include (not exhaustive):

- Software Engineering for Emerging Systems
- Software Testing, Testability, and Assurance
- Autonomous Systems and Robotics
- Artificial Intelligence Applications
- Blockchain and distributed Ledger Technology
- Cybersecurity and Information Assurance
- Measurements and Analytics of Systems
- Agile Software Development
- Cloud Computing Challenges and Applications
- Challenges and Opportunities in SW & Systems Development Processes
- SW and Systems Project Management
- Supply Chain Risk Management

The schedule for IEEE STC 2022 is as follows:

June 3, 2022	Abstract and optional full paper submission ends
July 1, 2022	Acceptance notifications sent
Aug 5, 2022	Submit final abstracts and presenter biographies
Sept 2, 2022	Submit final presentations and optional full papers
