Software and system reliability is the probability of failure-free software and system operation for a specified period of time in a specified environment. Reliability is also an important factor affecting software and system dependence. Many critical systems being required to operate without a system failure for a given period of time, such examples as nuclear, aerospace, spacecraft and high-speed trains and other such systems, need the development of reliability. This symposium provides scientists and engineers from both industry and academia a platform to present their ongoing work, relate their research outcomes and experiences, and discuss the best and most efficient techniques for the development of reliable, secure, and trustworthy systems. It also represents an excellent opportunity for the academic community to become more aware of subject areas critical to the software industry as practitioners bring their needs to the table. The 2019 ISSSR will be held from June 6-7, 2019 in Chengdu sponsored by University of Electronic Science and Technology of China.

**TOPICS OF INTEREST**
- Architecture and design-based reliability and performance
- Formalization and verification
- Fault tolerance and diagnosis
- Process improvement and maintenance
- Quality and safety
- Redundancy technology
- Reliability analysis and optimization
- Reliability measurement, estimation, and prediction
- Reliability modeling and validation
- Reliability requirement and growth models
- Testing and simulation
- Trustworthy evaluation
- Data-driven reliability model design
- Machine learning related to reliability

**IMPORTANT DATES**
- April 15, 2019: Paper submission due (extended)
- May 15, 2019: Author notification
- May 25, 2019: Camera-ready and author registration due
- June 6-7, 2019: Conference dates

**SUBMISSION**
Submit original papers (not published or submitted elsewhere) with a maximum of 10 pages (context and references). Include the title of the paper, and the name and affiliation of each author, a 150-word abstract, and up to 6 keywords. The format of your submission must follow the IEEE conference proceedings format. At least one Best Paper Award will be presented. Detailed instructions for paper submission can be found at [https://isssr19.techconf.org](https://isssr19.techconf.org).

**CONFERENCE PROCEEDINGS**
The conference proceedings will be published by International Journal of Performability Engineering. Papers presented at the conference will be submitted to Ei Compendex.

**ORGANIZING COMMITTEE**
- General Chair: Christian Hansen, Eastern Washington University, USA
- General Chair: Liang Luo, University of Electronic Science and Technology of China, China
- Program Chair: Manuel Núñez, Universidad Complutense de Madrid, Spain
- Program Chair: Peng Sun, University of Electronic Science and Technology of China, China
- Publicity Chair: Chuan Li, Chongqing Technology and Business University, China
- Publicity Chair: Steven Li, Western New England University, USA
- Local Chair: Han Xu, University of Electronic Science and Technology of China, China
- Publication Chair: Vidroha Debroy, VARIDESK, USA
- Finance Chair: W. Eric Wong, University of Texas at Dallas, USA
- Finance Chair: Xuelin Li, University of Texas at Dallas, USA

**GENERAL INQUIRIES**
For more detailed and updated information, please refer to [https://isssr19.techconf.org](https://isssr19.techconf.org).
