

## **New IEEE Fellows from Reliability Society in 2023**

We are very exciting to announce that there will be **FOUR** people from Reliability Society joining the class of IEEE Fellows in 2023, which made the new history of successfully elevating fellows from Reliability Society.

The new fellows are:

- **John Evans**
  - For contributions to electronics parts and assemblies for space systems
  
- **James Michael**
  - For contributions to the protection of critical infrastructure
  
- **Mohammad Modarres**
  - For contributions to probabilistic risk assessment in nuclear safety
  
- **Zibin Zheng**
  - For contributions to blockchain reliability engineering.
