

The “PHM France” group, founded in 2018, includes members of French industrial companies and academia and aims to share best practices and experience in PHM. It typically meets twice a year.

The next meeting is planned for October 13 in Metz, at the ARCELOR-MITTAL Digital Labs. The program will include among others the following:

- “GE- Hydro predictive analytics: a 10-year retrospective view”, by Vincent Bouillet, Sr Engineer - A.I-OT with GE Vernova
- Academia-Industry Synergy for “PHM: illustrations of Prognostics, Health Management” and Maintenance Decision Support, Prof. Benoît Iung, CRAN-Nancy
- Visit of d’ArcelorMital Digital Lab, with demos.
